

OUTDOOR RACK

(IP RATED)

9U

OVERVIEW

BlueRack's IP65 Certified outdoor wall mounting networking racks offer an efficient and budget-friendly solution for securing your networking equipment in outdoor settings. Designed for quick deployment, these racks are ideal for various applications, including CCTV surveillance, city Wi-Fi, and smart city projects.

Despite their entry-level pricing, BlueRack's racks do not compromise on quality. With features like louver static vents and a cooling fan for optimal airflow, effective sealing with metal rubber gaskets, and enhanced security through a Keyman knob lock system, these racks are built to perform in challenging environments.

Additionally, the IP65 certification ensures complete protection against dust and water, while the robust construction from 1/1.6mm thick MS/GI steel provides lasting durability. BlueRack's outdoor racks seamlessly integrate with your existing networking devices, ensuring straightforward setup and reliable performance without the need for complex configurations. Experience the perfect combination of functionality and protection with BlueRack's outdoor networking racks.

Key Features:

- **Sturdy Build:** Constructed from 1/1.6mm thick MS/GI steel sheet, providing strength and durability.
- **Corrosion Resistance:** Powder-coated finish enhances resistance to corrosion and water, ensuring the rack remains durable over time.
- **IP65 Certification:** Guarantees complete protection against dust and low-pressure water jets, suitable for challenging outdoor conditions.
- **Secure Access:** Fitted with a Keyman knob lock system to provide enhanced security.
- **Effective Sealing:** Metal rubber gasket ensures a tight and secure seal to shield against environmental factors.
- **Optimal Cooling:** Louver static vents with cooling fan to maintain efficient cooling of equipments.

Application

- Ideal for outdoor surveillance systems, providing a secure housing solution for network devices in CCTV projects
- Used in industrial environments like warehouses, where space-saving solutions are needed for networking equipment
- Space-efficient storage for networking gear in smaller setups
- Provides secure housing for networking equipment in outdoor environments

Specifications

- Dimension:

Height In "U"	Part Number	Overall Height	Usable Height	Overall Depth	Usable Depth	Overall Width	Usable Width
9U Unloaded	BROR095504	470mm	400mm	400mm	370mm	550mm	482.6mm

- **Material:** MS/GI Steel Frame
- **Steel Thickness:** 1/1.6mm
- **Construction:** Steel welded for increased strength and rigidity
- **Finish :** Powder Coated
- **Mounting Rail :** 4X19"
- **Mounting Rail Thickness :** 1.59mm
- **Door lock system :** Key man knob lock
- **Gasket Rubber :** Metal rubber gasket.
- **IP Certification :** IP65
- **Maximum Loading Capacity :** 35kg

Package Contents:

- 9U IP65 Certified Outdoor Rack
- Wall/Pole Mounting Accessories

Recommended Accessories:

- Power Distribution Unit
- Single cooling Fan 90CFM 230V AC
- Mounting Hardware/ Cage Nut
- Fixed Tray
